

Husqvarna

Great experience

Power cutter for longer runs.

The K 750 features our exclusive engine technology, DualCharge, for a huge 3.7 kW of power, low emission levels and impressive fuel economy. Combined with our new KV04 cutting trolley you have a perfect tool for convenient and efficient long cuts in asphalt and concrete floors.

- The DualCharge engine provides better power, higher torque and 70% less emissions.
- Active Air Filtration, centrifugal air cleaning in three stages increases service life and extends the intervals between services.
- The KV04 comes fully assembled and complete.
- The K 750 attaches handily to the trolley, using the quick mounts.
- The depth control is accessible from working position.
