

light on your work

**TRIME**  
Lighting Tower Specialist

Our engineers know that the market needs a standalone Solar light very simple to use, with no separate battery pack required and with no complicated wiring or settings. X.POLE SOLAR has been created beginning from these characteristic. It is the best solution to your needs and automatically will switch on when the sun sets and switch off when the sun rises... When there is no one around ,it will dim itself to improve power efficiency and when someone walk around it will increse its light to maximum power. 40 units can be loaded on a standard truck. We provide the highest quality of fix solar lighting in the market. Tower is designed to work with ZERO CO2 Emission, ZERO Noise level and ZERO fuel consuption.

5,5 m

Kg400

400 sqm

battery

- in house innovated controller that can regulate power output
- LiFe PO4 lithiu-ion battery pack
- High efficiency solar panel protected against all weather conditions
- High Luminous LED head complete with new light distribution lens design
- 5sections manual vertical tower
- 5,5 m max height
- Galvanized metalworks
- 80 µm powder coating
- forklift pockets for effective handling
- strong galvanized base
- PIR motion sensor as standard feature

## APPLICATIONS

Plaza car park

Special events

Rural street

Construction & work sites

Emergency exit

Industrial park

Military applications

40  
Units Per Truck

**You can place 40 units on a single vehicle thanks to one of the compactest footprint on the market.**

HIGH EFFICIENCY SOLAR PANEL

HIGH LUMINOUS LED LIGHT

PIR MOTION SENSOR

SAFETY MANUAL VERTICAL MAST

STRONG GALVANIZED BASE

# technical data

Dimensions & weight		Batteries	
Dimensions min. (mm)	1500X600X2360	Type	Liuthium
Dimensions max (mm)	1500X695X5500	Batteries number	1
Total weight	Kg 400	Power Battery pack	656 wh
Floodlights		Expected battery cycle	2000
Type	LED	Solar Panel	
Power (each)	50W	Power	130W
Floodlights number	1	Solar mode	
IP level	65	Min.working Full Bright	11,5 h
Illuminated area (5 lux min.) (sqm)	400	Min.working dim mode	46 h
Mast		Optional	
Lifting method	Manual	4 Adjustable Height Stabilizers	
Maximum Height	5,5 m		
Maximum Wind Speed	80 km/h		

## Standard load delivery

**40 sets**

Units Per Truck

## Illuminated area

**400 sqm**
